

Areas of Application

XANOXX – UNIVERSAL can be used wherever

- moisture, damp, humidity, condensation and flooding can cause or has already caused malfunctions and/or damage,
- metal, electric and electronic components and systems are to be protected from humidity and the damage it causes,
- electric wires, contacts, electric motors, ignition-systems, windings,

A

Adjustable valves
Advertising illuminations
Aerials Cable rollers
Alarm systems
Aquaria
Avionics
Awning control units

B

Buzzers
Ball bearings
Battery contacts
Battery-powered drills
Battery-powered screwdrivers
Battery-powered tools
Bell ringers
Bells / buzzers
Bicycles
Blind drives
Blind switches
Boilers (electrical)
Bowden cables
Branch boxes
Breweries
Building and path lighting
Building site lamps
Buses

C

Cable rollers
Cable rollers
Cable rolling machines
(for large cable drums)
Cable rolls
Camping
Car washes
Caravans
Cars
CEE sockets (power sockets)
Chip card readers
Christmas lighting
Circular saws
Circulating pumps
Circulation pumps
Cistern pumps
Coaxial plug connectors

fuses, switch-appliances and switches, junctions boxes and signal-installations need damp protection or insulation,

- ignition problems are to be eliminated, current leaks suppressed, electric contacts restored and/or malfunctions corrected.

XANOXX – UNIVERSAL therefore reduces breakdowns and downtime to a minimum. The following is a list of typical application possibilities (in alphabetical order):

Code locks in outside areas
Coils
Coin counters
Commercial vehicles
Communications
Compass saws
Computer keyboards
Computers
Connection boxes
Connection terminals
Construction machinery
Control cabinets
Control engineering
Controls (HiFis and other
Counter current systems
Cylinder locks

D

Deep fat fryer
Detonators
Distribution boxes
Door castors
Door hinges
Door locks
Door operators
Door wiper contacts
Dormer window drives
Drill chucks on drills
Drills
Drives
Dynamamos

E

Electric motors
Electrical cabinets on building sites
Electrical devices
Electrical door openers
Electrical systems
Electromechanical drives
Electronic modules
Emergency lamps
Emergency power generators
Escalators
Exhaust pipes
Extension cables

F

Fans
Filling systems
Fine-wire fuses

Flashlights for vehicles
Flex (angle grinders)
Float switches
Floodlights
Fluorescent lights
Fog machines
(especially for dry ice)
Forestry
Fork-lift trucks
Fuse-boxes
Fuses

G

Garage door drives
Garages
Garden lamps
Garden power sockets
Garden pumps
Glow lamps
Grinding machines

H

Hall lighting
Hammer drills
Hand lamps
Hearing devices
Heating
Hedge-cutters
High-pressure cleaners
Hinges
House telephones
Hydraulic presses
Hydraulic pumps

I

Ignition
Ignition coils
Ignition problems
Illumination cables and mountings
Illumination systems
Illuminations
Industrial lamps
Installation relays
Intercom systems
Intercoms

K

Key-operated switches

O

Outside fittings
Outside lamps
Outside sensing devices for heating systems

L

Lamp poles
Lamps
Lawnmowers
LED lamps
Letter box intercom systems
Lifting platforms
Lifting pumps
Lifts
Light chains
Light current systems
Lightning conductor systems
LNBS
LNCs

Locking systems
Locks (door locks)
Loudspeaker connections
Low-voltage applications in
general
Low-voltage circuitry
Luster terminals

M

Marine Facilities
Mechanical latches
Metal cables
Metal sculptures (for
gardens)
Model airplanes
Model building in general
Model cars
Moped headlights
Motion sensors
Motor saws
Motor scooters
Motorcycles

O

Off-road vehicles
Old-timers
Open-air festivals
Optical / acoustic signal units
Orbital sanders
Orientation lamps
Outboard engines

P

Padlocks
Party illuminations
Pedals
Pin code keyboards
Pistols Pliers (of all kinds)
Plug connections
Plug strips
Points systems
Pole lamps
Pool pumps
Position switches
Power supplies
Power transformers
Precision engineering
Presses (all kinds; e.g. paper
presses in recycling yards)
Pressure monitors
Production equipment
Pumps

R

Racing bikes
Rain sensors
Rainwater pumps
Receivers
Receiving equipment
Relay contacts
Revolvers
Revolving mirror lights
Rollerblades
Rollers
Roof ventilators
Rotary drives in general

Rotary switches
Rubber seals)

S

Sat systems
Saws (of all kinds)
Shredders
Shredding systems
Signal engineering
Signal systems
Skateboards
Ski lifts
Socket strips exposed to the elements)
Socket terminals
Socket timers
Sockets
Spark plugs
Stacker trucks
Stage lighting
Starters
Street lamps
Sunshade controls
Swimming-pools
Swing gate drives
Switches
Switchgear
Switching devices

T

Telecommunications in general
Terminals
Thermostats
Timers
Timing relays
Tools
Torches
Toy boats
Tractors
Traffic light systems
Traffic lights
Trailer couplings
Transformers

U

Underfloor installations
Underwater lighting
Upright drills
UPS systems

V

Valve drives
Video door stations
Valve drives

W

Wall fans
Wall lamps
Warning bells
Warning lights
Waste treatment plants
Weapons
Weather sensors
Wet grinders
Wheel hubs
Winches
Wind sensors
Window hinges
Window knobs
Windscreen wipers
Wiper contacts
Work lamps

Y

Yachts Window hinges
